

## Engineering Precision

RJD's in-house machining facility has the capability to Fabricate and machine base plates trailers and tanks, which are frequently undertaken in our purpose built machine workshop.

The horizontal planing machine 4 axis CNC universal head including DRO is used to finish machine plate fabrication to detailed customer drawings.

Our main items of plant & equipment are:

- Vertical Milling Machine Complete with D.R.O.
- 14 Overhead Cranes
- 250 Tonne Press
- CNC Profile Machine
- Pyramid Roller (4m X 25mm)
- 35 Tonne Mobile Crane
- 3 Lathes (In-House Machining)
- Plasma Arc Cutting Machine
- Sub Arc Welding Machines
- Horizontal Planing Machine 4 Axis CNC Universal Head
- Faro Arm
